

# Tattoo After Care Guide

**A tattoo is more than a piece of art!  
Artist has put a lot of efforts  
by giving you a piece!**

**We have managed to give you  
an unforgettable experience  
at Zenspace Tattoo!**

**Kindly follow the below after care steps,  
so your tattoo heals properly.**

# Day 1

This is the day when you get your tattoo done.

Your tattoo is been covered with a thin **Temporary wrap which you have to keep for 1hour**

## **Day 2**

Visit us to get your tattoo Dermalize

### **What is Dermalize?**

It is a medical grade protective tattoo flim.

### **Why Dermalize?**

It protects your tattoo from

- Water
- Bacteria
- Dust

**What will happen when your tattoo is wrapped with ?**

You will see liquid flowing and your tattoo is all blurry.

Don't panic, it is normal.

This fluid is called **Plasma**

It is totally normal and expected

**You have to keep the wrap  
for 5-6 days.**

**While the wrap is on  
AVOID the following**

Water splash is fine. But avoid  
direct flow of water

---

- Non-veg
- Alcohol
- Exercise & Gym
- Cross contamination due to Pets
- Stretching
- Sweating
- Chlorine water or swimming pool

## Once you remove the wrap Follow These Instructions

Avoid Soap for next 10-12 days

---

Prevent direct Sunlight as that will  
damage the tattoo

---

Start applying moisturiser which suits  
your skin type. Apply it **3 times a day.**  
(after shower, in evening and at night)

While applying gently massage it  
until the moisture is absorbed to the skin.  
( **Continue apply for a month** )
